FEMALE, 21

EDUCATION

B.Tech - Electronics & Communication Engineering (minor - AI & ML)	2023 – 2027	Netaji Subhas University of Technology, Delhi	7.23 CGPA
AISSCE (Class XII)	2023	J. N. International School, Delhi	89.6%
AISSCE (Class X)	2021	Delhi Public School, Faridabad	92.4%

INTERNSHIP

Data Analyst Intern | Avery Dennison India, Greater Noida (May 2025- July 2025)

- AD India - A Fortune 500 global leader in materials science, pressure-sensitive adhesives, and smart packaging.
- Reviewed and edited SOPs of **10+ machines** to contextualise sensor data and align analytics with floor ops.
 - Detected inefficiencies and identified operational gaps through machine data analysis, driving **33.3% reduction in inefficiencies** and measurable gains in machine downtime and productivity.
 - Engineered a **dynamic employee directory system** to centralise production and work data, supporting data-driven performance analysis and operational decision-making.

Technical Intern EMC Test & Training Centre, Gurugram (May 2026- July 2026)

- EMCTTC - ISO17025 accredited technical facility focused on EMC testing, RF compliance & regulatory certification.
- Supported EMC compliance testing of electronic products, including test setup, execution, and validation against regulatory standards.
 - Recorded and **analysed lab test data** alongside engineers to assess EMC compliance and support product validation along with compiling technical reports and testing documentation.

ACADEMIC PROJECTS

Academic Research on Logistic Map-Based PRNGs, J.C. Bose UST, YMCA, Haryana

- Surveyed **50+ papers over 3 months** on chaotic, logistic map and QLM-based PRNGs, synthesising findings into a comprehensive review of entropy, scalability and other performance benchmarks using Python.
- Engineered custom simulation frameworks to evaluate PRNGs using multi-parameter randomness tests, identifying efficiency-security trade-offs and exposing design flaws in widely used generators.
- Built a **hybrid chaos-based RNG framework** by integrating Logistic & Modified Lorenz maps with SHA-256 post-processing, validating performance through Chi-Square Test, Spectral Analysis and NIST STS.

Amazon Prime Video Channels Case Study: Product Strategy & Revenue Optimisation

- Sized a **₹29.2 Cr incremental annual revenue opportunity** for Prime Video India, translating market sizing, pricing and segment-level adoption into a **4.1% projected attach rate** and measurable revenue KPIs.
- Targeted a **94% paywall drop-off** across the user funnel, prioritizing 2 product interventions targeting a **2x conversion lift**, establishing complete funnel telemetry and a **0.1% core churn guardrail**.

ACADEMIC ACHIEVEMENT AND AWARDS

- Publication: **Mittal, N., Dhall, S., Rai, L., and Gupta, S.** "Logistic Map-Based Deterministic Random Number Generators: A Survey." **SN (Springer Nature) Computer Science**, vol. 7, 2026, Article 265. DOI: 10.1007/s42979-026-04853-5.
- Publication: **Mittal, N., Sharma, D., and Tanwar, Y.** "A Hybrid Chaos-Based Random Number Generation Scheme Using Logistic and Modified Lorenz Maps with SHA-256 Integration." **JCBJETS, Accepted, 2026.**

POSITIONS OF RESPONSIBILITY

President | Crosslinks, NSUT

- Directed content strategy across social media, the university yearbook, and official communications, reaching **10K+ audience members** and driving engagement through compelling promotional campaigns.
- Led a **60+ student team** across flagship events, including Alumni Meets, NSUTThon (**4K+ participants**) and Scribble Day (**3K+ attendees**), ensuring smooth execution and high participant turnout.

Director | The Debating Society of NSUT

- Aided society ops like recruitment, training & resource planning, driving consistent competitive outcomes.
- Co-led **NSUT's flagship conferences**, including NSUT MUN with **2K+ participants** across 4 days and NSMPD, managing logistics, delegate experience and cross-team coordination at scale.

OTHER INFORMATION

- Technical Skills:** SQL, Python (NumPy, Matplotlib), MS Excel, PowerBI, Looker Studio, OpenCV, AutoCAD, KiCAD, MATLAB
- Extra-Curricular Activities:** Lawn Tennis, Chess, Oil Painting, Swimming, Crochet
